

Short-term contracts kill careers!

Respect reappointment rights.

Did you know?

- Langara senior administration are **bypassing laid-off faculty** for available work this fall.
- **The work is being offered to faculty with less seniority on temporary contracts.**
- If there are none available, **laid-off faculty must apply and interview for the jobs they just lost – with no guarantee that they will be given the work.**
- This plan is **unfair. It violates our Collective Agreement and undermines long-term employment for everyone.**
- Our students and college deserve better: long-term faculty who can build a real career.

LFA members call on our administration:

- **Honour reappointment rights**
- **Respect our Collective Agreement**
- **Protect career employment at Langara**
